

Indiana Glamour Photography

Price Worksheet (effective 01/01/07)

Our pricing for photography is made up of 2 parts: The studio fee (some call this a sitting fee) and the cost of the products made. Using the worksheet below, you can quickly determine your approximate total cost. Be sure to confirm our current pricing when you schedule your photo shoot. A category is the same as a wardrobe/look. It'll be easier if you complete this form while viewing our website's Products page.

This isn't an order form! You'll be given an order form for your purchase after viewing your images on our proofs page. This form is for your information only. Be sure to deduct any current specials!
